PARALLEL

The screenshot shows the Eclipse IDE interface with the 'Console' window open. The console displays the output of a Selenium test suite. At the top, there is a red error message: 'SLF4J: Failed to load class "org.slf4j.impl.StaticLoggerBinder".' followed by two informational messages: 'SLF4J: Defaulting to no-operation (NOP) logger implementation' and 'SLF4J: See http://www.slf4j.org/codes.html#StaticLoggerBinder for further details.' The main part of the console shows a series of log messages for different test methods, including 'beforeSuite', 'beforeClass', 'beforeMethod', 'fbAccount', 'searchGoogle', 'googleAccount', 'testLocalPage', and 'afterMethod'. Each message includes a timestamp and a thread ID. At the bottom of the console, a summary line states: 'Suite Total tests run: 6, Passes: 3, Failures: 2, Skips: 1'. The taskbar at the bottom of the screen shows the system clock as 15:39 on 20-07-2023.
